PROFILE SUMMARY

4 years of experience building and deploying Android applications, now transitioning into DevOps and cloud engineering. Strong background in Java and Kotlin with a solid understanding of software lifecycle, scalability, and system design.

Hands-on experience with Linux, Shell scripting, Docker, Kubernetes, CI/CD (GitHub Actions, Jenkins), and AWS (EC2, S3, IAM, VPC), focusing on real-world deployments and automation.

Seeking DevOps Engineer, Cloud Engineer, or SRE roles.

KEY COMPETENCIES

- DevOps & CI/CD Pipelines
- AWS Cloud (EC2, S3, IAM, VPC)
- Docker & Containerization
- Kubernetes
- Linux Administration
- Shell Scripting (Bash)
- Jenkins & GitHub Actions
- Git & Version Control
- Terraform

PROJECT EXPERIENCE

Three-Tier Web Application Deployment on AWS EKS with CI/CD and Monitoring

Tech Stack: AWS (EKS, EC2, IAM), Docker, Kubernetes, Jenkins, Argo CD, Prometheus, Grafana, Git

Deployed a containerized three-tier web application on Amazon Web Services using Amazon EKS, implementing CI/CD pipelines and monitoring tools as part of hands-on DevOps practice.

- Containerized frontend and backend applications using Docker and deployed on Kubernetes (EKS)
- Built CI pipeline using Jenkins to automate build and deployment process
- Implemented GitOps-based CD using Argo CD
- Configured Kubernetes services, deployments, and basic autoscaling
- Monitored application performance using Prometheus and visualized metrics in Grafana
- Deployed application using YAML manifests and managed version control with Git

PROFESSIONAL EXPERIENCE

Srishti Innovative Computer Systems

July 2021 - Nov 2025

Android Developer

- Developed and maintained multiple Android applications for clients using Java and Kotlin.
- Implemented APIs to communicate with the backend services.
- Integrated third-party libraries and services into the applications.
- Collaborated with cross-functional teams including Product Managers, Designers, and QA Engineers to ensure timely delivery of the products.
- Worked with the UX/UI team to ensure that the application was user-friendly and visually appealing.

EDUCATION

Mechanical Engineering

St Thomas Institute for Science & Technology, Thiruvananthapuram

2016 - 2020
